JHON ARZU-GIL

Application Developer Programming Specialist | Full-Stack Engineer

@ Jgil20@me.com   🔗 https://www.linkedin.com/in/jhongil   📍 Austin, Texas
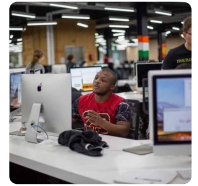

SUMMARY

I have over 6 years of experience in software development total, 4 years of that at IBM. Including specialized expertise in full-stack engineering across PHP, Python, Java, and C. I progressed rapidly at a Fortune 500 Big Tech company, earning 5 promotions in under 3 years due to my exceptional performance and technical skills. I'm Proficient in full-stack development technologies, including PHP, Python, Java, C, HTML, CSS, JavaScript, SQL, and MySQL. Expert in cloud computing with experience in IBM Cloud, Microsoft Azure, Amazon Web Services (AWS), Linode, Google Cloud, and SAP Analytics Cloud. Demonstrated capability in machine learning, artificial intelligence, and both web and mobile application development across Android and iOS platforms.

EXPERIENCE

Application Development Programmer Specialist

IBM   📅 03/2021 - Present   📍 Baton Rouge, LA

As an App Development Programmer Specialist at IBM, I focus on the design, development, and maintenance of software applications for various platforms, including SAP, mobile (iOS and Android), web, and desktop applications

- Hands-on experience navigating my Scrum board in an Agile team following Agile Methodologies decreasing time to go live by 20%.
- Delivered over 50% of contracted application development projects for Norfolk Southern, a Fortune 500 company, ahead of schedule and under budget constraints, significantly enhancing operational efficiency and client satisfaction.

Application Developer Apprentice

IBM   📅 03/2020 - 01/2021   📍 Baton Rouge, LA

I've completed the 12-month IBM Application Developer Apprenticeship curriculum that's nationally recognized by the Department of Labor in two weeks and have received the certificate.

- Learned the Linux Command line and how to navigate through its directories.
- Took classes and used Git for version control and to make edits to various projects like mobile applications or websites.
- I completed various web development projects like my portfolio site using HTML5, jQuery, and Bootstrap (Framework) and an eCommerce website using a CMS, WordPress.

Freelance Developer

Lake Odessa Carpet Cleaning   📅 07/2018 - 02/2020   📍 Austin, TX

Developed software solutions for Lake Odessa Carpet Care as a freelance consultant. I increased their overall revenue by using technology more efficiently and creating intangible assets like marketing funnels and Facebook business pages... Etc

- I started with Web Design and built a feature-rich website using a CMS, WordPress. Customers could order online to have their carpets cleaned if they didn't want to talk to someone on the phone.
- Debugged integrations with existing applications across multiple platforms.
- Created and implemented source code of new applications.
- Provided Business Owner with assistance solving computer-related problems, such as malfunctions, and program problems.

EDUCATION

Bachelor of Science in Cloud Computing

Western Governors University   📅 2014 - Present   📍 Online

STRENGTHS

</> Full-Stack Development Proficiency:
Advanced skills in PHP, Python, Java, C, HTML, CSS, JavaScript, SQL, and MySQL. Expertise in both front-end and back-end development, ensuring seamless, efficient, and robust software solutions.

☁ Cloud Computing and Data Science Expertise
Proficient with multiple cloud platforms (IBM Cloud, Microsoft Azure, SAP Analytics Cloud) and adept at applying machine learning and artificial intelligence to solve complex problems.

📱 Mobile and Web Development
Demonstrated ability in developing and deploying mobile apps for both Android and iOS platforms, alongside building responsive and optimized web applications.

PROJECTS

Portfolio Site

Developed a web-site for marketing and to display my portfolio to hiring managers. I incorporated on page S.E.O and Off Page S.E.O to better take advantage of free marketing.(SEO) practices ensure that the website ranks higher in search results, increasing the likelihood of attracting organic traffic.Built using HTML,CSS, JavaScript, and PHP and MySQL.

Tech Start-Up

I'm the founder of Cloud Technology Corporation Schedule an appointment and check out a list of our services. The affordable solutions are priced below market average to better target cash strapped small business owners who dream about starting their own company but don't have the necessary resources or knowledge to do it. Built using HTML,CSS, JavaScript, and PHP and MySQL.

Is it Beach Weather

Have you heard people say that they know it's going to rain because they can feel it in their bones? You may have laughed at that, but it could be true, you know? Or you can make a backend call Java and AWS and know the weather anywhere.

PROJECTS

E-commerce Site Iownya
Iownya is a drop-shipping site I have linked to a third-party provider that ships the product for me and soon as a customer places an order it's all automated and its built using WordPress like the other 45.8% of all websites on the internet in 2023.
[www.iownya.com]

E-commerce App Iownya
Benefits of creating an E-Commerce app for your business
Many reports show a spike in smartphone users' year-on-year. So I created an eCommerce app for my business.

The Memoir Of Jhon Arzu-Gil App
An app built using Java. That uses a list view to store array coordinates. Then it sends call to the API call to google apps, so you can store locations for further use.
